Artist: *Caroline Brown:* Caroline is a published professional photographer who lives in Hudson Heights and is a member of the Uptown Community Church. She exhibits at Hudson View Gardens and has won the Crystal Apple Award for historic preservation and education.

Artist: *Tuwanda Harmon:* "I'm a self-taught digital artist, born in the Bronx, now living in Washington Heights. My inspiration comes from unscripted storytelling that builds up character throughout the process. When people see my work, I'd like them to see a story hidden within the piece. I enjoy using bold, bright colors, collaged patterns and photo manipulation. My favorite subject matters are portraits and abstracts which I create using digital applications on my iPad, painting with brush and canvas and using other mixed media. The most fulfilling part of my life is being a wife and mother."
