**NEW YORK, NY, May 21**— Join several artists who have contributed images of their work to Uptown Images, Hebrew Tabernacle's digital gallery, an offshoot of its Gold Wing Gallery. The artists will **discuss their work** and engage in conversation with **exhibition curator Lilia Levin**.

[Hebrew Tabernacle of Washington Heights](#) has launched [Uptown Images](#), a digital gallery showcasing the work of Northern Manhattan visual artists. Through the filters of their diverse backgrounds, the nineteen artists in the gallery depict life in Washington Heights and Inwood using different media and a variety of techniques and styles. We asked the artists to comment on their own work, share how they created it, and reflect on their individual experiences of Uptown.
