

**Let's thank our NYS legislators for making
NY a Safe Haven for Transgender Youth and Families**

NY State Senator Robert Jackson and Assemblymembers Al Taylor and Carmen de la Rosa (at the time) participated in the successful vote to pass the NYS Safe Haven for Transgender Youth & Families Act (S2475/A6046).

Transgender youth & their families residing in NY may need protection from other state governments. Some may have relocated from states hostile to their child and families. This bill protects these youth and families from out-of-state laws or subpoenas that prohibit their families from determining their child's need for gender-affirming care.

That decision should be made by transgender youth and the families that are supportive of them.

We thank Sen. Jackson and Assemblymembers Taylor and de la Rosa for their votes. We also want to let our new Assemblymember Manny de los Santos know that we support this bill and other efforts to protect the health and rights of transgender New Yorkers.
